DOCTOR APPOINTMENT WEBSITE
Problem Statement:

Create a doctor appointment booking website where patients can view doctors, their specialization, availability, and book an appointment online. The system should be simple, user-friendly, and responsive.

Objective:

To build a healthcare-based web application using HTML, CSS, and JavaScript for online doctor consultation and appointment scheduling.

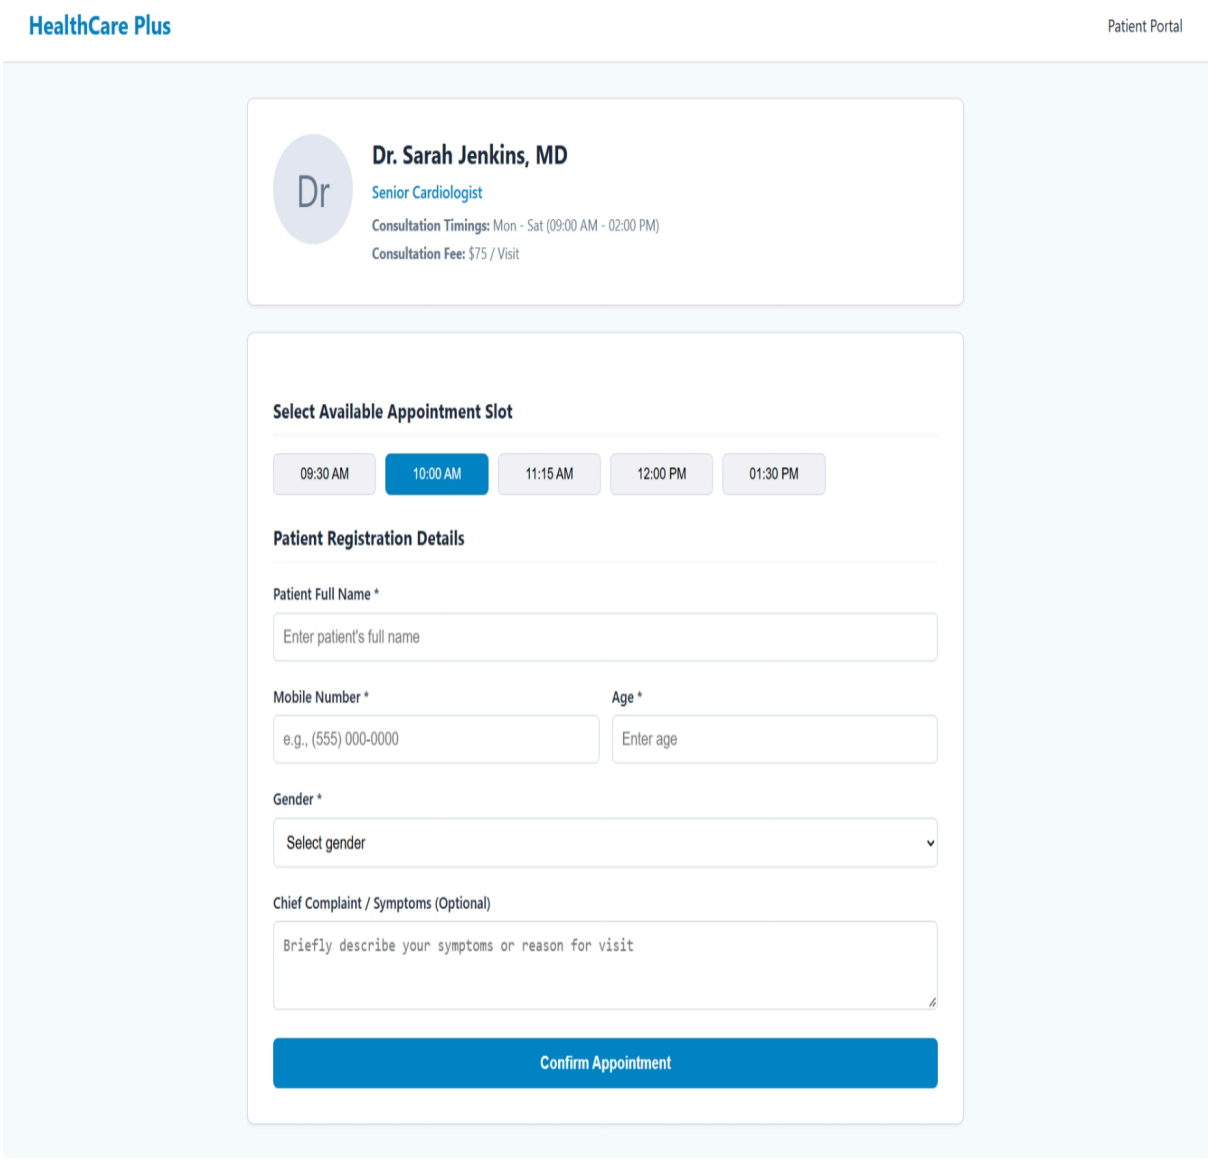

Applications

1. Doctor Information: Helps patients view doctors' names, qualifications, specializations, and experience.
2. Online Appointment Booking: Allows patients to book appointments with doctors through the website.
3. Specialization Search: Helps patients find doctors based on specializations such as cardiology, dermatology, pediatrics, and general medicine.
4. Availability Checking: Allows patients to check doctors' available dates and time slots.
5. Patient Convenience: Reduces the need to visit a hospital just to schedule an appointment.
6. Appointment Management: Helps patients view their appointment details and booking status.
7. Healthcare Access: Makes it easier for patients to find suitable doctors and plan consultations.

Features

1. User-Friendly Design: Provides a simple and clear interface for patients.
2. Responsive Layout: Adjusts the website to mobiles, tablets, and computers.
3. Doctor Profile Cards: Displays doctors' names, photos, specializations, and experience.
4. Search and Filter: Allows users to search for doctors by name or specialization.
5. Appointment Form: Collects patient details, preferred doctor, date, and time.
6. Availability Slots: Displays available appointment dates and time slots.
7. Form Validation: Uses JavaScript to check required fields and prevent incomplete submissions.
8. Booking Confirmation: Displays a confirmation message after a successful booking.
9. Navigation Menu: Provides links to Home, Doctors, Appointments, and Contact sections.
10. CSS Styling: Uses attractive colours, readable fonts, and suitable layouts to improve the website's appearance.

OUTPUT :

HealthCare Plus
Patient Portal
Dr
Dr. Sarah Jenkins, MD
Senior Cardiologist
Consultation Timings: Mon - Sat (09:00 AM - 02:00 PM)
Consultation Fee: $75 / Visit
